ABOUT US

With a 100-year long family history in ceramics making and travelling the world for inspiration and techniques, Dutch Rose was founded in 2016. A tableware brand born out of a love for sharing beautiful moments around the table. The dinner table is the place where the foundations of health and happiness are laid and our collections are simple ways of integrating beauty into people's daily routine.

Our collections are designed with respect for the fine balance between Dutch tradition and the trends of the moment. Our pieces are a blend of classic vitality and modern edge. Characterised by soft forms, rich textures and unique details, our collections are designed to make you enjoy the everyday moments with a touch of the unexpected.

Our roots are in Amsterdam, a city that lives and breathes creativity: one minute you're walking inside a 17th-century building and the next you find yourself in a hub of creative start-up companies. This contrast is the common thread throughout our collections

With a keen eye for detail, we work with craftspeople around the world, combining our centuries-long experience with global heritage and expertise. From materials and processes to production and delivery, we challenge ourselves every day to positively contribute to a more sustainable future.

Our collections are designed to make you enjoy the everyday moments with a touch of the unexpected.

A place where memories are made

THE DINNER

We spend many hours of our lives at the dinner table: a place where many of our memories are made. A comfortable place for enjoying a cup of coffee, dinner with family, playing with the kids, reading a good book or entertaining guests, the dinner table is the central gathering point in the home. There's just something about planning, creating and then sitting down to a meal with the people you love the most. It should therefore be a place that houses tableware and decoration that you love, and that fits seamlessly into your everyday life.

TABLE

The Organic series creates a lush mix of colours on your table. The various designs merge tradition with the contemporary, and let you pair the various colours and patterns to suit any mood or setting.

The

SERENITY

collection

With natural and calm tones on genuine vitrified stoneware, the Serenity collection is inspired by Japanese pottery and captures the essence of rustic tableware with more than a hint of elegance. This collection was designed with a vision to integrate modern tableware design with the organic quality produced by traditional manufacturing techniques. The pieces of the same diameter can be stacked on top of each other, making them easy to store while forming a beautiful rhythmic harmony. Each piece is handcrafted with a special reactive glaze, making each one unique. Characterised by clean shapes, this collection brings calm and serenity to every table setting and is available in four different colours.

The

VELVET

collection

This timeless dinnerware collection is characterised by organic edges and a modern black matte glaze. Its unique glossy speckles create a 'velvety' look and set the table for everyday and special occasions alike. This collection is made with black matte clay, thanks to its coarse texture which gives it that earthy and hand-touched feel. The hand glazing process creates a dark border ring around the pieces and makes each item unique in shape and colour.

The

SAPPHIRE

collection

It was the Japanese sense of sophistication and minimalism that inspired the Sapphire collection. This collection has clear references to shell shapes, blossoms and abstract structures present in nature and are translated into a range of unique handcrafted pieces, made out of stoneware.
